**LifeStraw**

LifeStraw filters to 0.2 microns through the use of hollow-fiber membranes, which are small tubes with even smaller pores. These pores allow water to pass, but prevent contaminants larger than 0.2 microns from flowing through. As you get closer to 264 gallons (1,000 liters), the pores will eventually become clogged with debris and the flow will stop.

- Award-winning LifeStraw has been used by millions around the globe since 2005
- Removes minimum 99.9999% of waterborne bacteria (>LOG 6 reduction) and surpasses EPA standards for water filters
- Removes minimum 99.9% of waterborne protozoan parasites (>LOG 3 reduction) and filters to an amazing 0.2 microns
- Filters up to 1000 liters of contaminated water WITHOUT iodine, chlorine, or other chemicals
- Comes in a sealed bag, perfect for storing for emergencies
SteriPen Adventurer Opti Water Purifier

Great for camping, hiking and backpacking. Easy to use 1 button operation; LED light quickly indicates when ready to purify, then place the pen like lamp in clear water and stir until indicator light turns green. Dirty water should be pre filtered until clear prior to treatment. The UV lamp provides up to 8,000 one liter treatments. Device works with containers with minimum 1.75 in. diameter opening (ie Nalgene wide-mouth bottles). Low power indicator lets you know when batteries need replacing. Automatic shut off when treatment is complete. Includes black neoprene case with belt loop and 2 non-rechargeable CR123 batteries and instructions. Size: 15.5cm. (6.1in.) x 3.3cm. (1.5in.) x 2.2cm. (1.0in.). Weight: 103g/3.6 oz. with batteries.

Aquamira Frontier Emergency Water Filter System

Don’t let contaminated water cut your adventure short. Play it safe and filter up to 30 gallons with the Frontier Filter by Aquamira. This ultra-portable water filter is designed to take along wherever you go and it’s highly effective against the invisible culprits waiting for you in the water. The Frontier Filter uses the torturous path method of water filtration, which traps over 99.9 Percent of harmful Cryptosporidium, Giardia and other pathogens, including waterborne insect larvae and many bacteria such as E. coli. Keep a Frontier Emergency Water Filter by Aquamira in your backpack, luggage, gear bag and vehicle for safe, on-the-go hydration wherever your adventures take you.

- Frontier Emergency Water Filter by Aquamira-Compact, Light and Effective
- Carry the Frontier Emergency Water Filter by Aquamira in your pack or pocket for safe drinking water, wherever you are. Traps 99.9 Percent of Cryptosporidium and Giardia
- Lightweight and compact emergency water filter system. Easy to use; drink directly from any water source.
- Removes greater than 99.9 Percent of Cryptosporidium and Giardia. Filters up to 30 gallons of water.
- Activated coconut shell carbon filter. Miraguard Antimicrobial Technology suppresses bacteria, algae, fungus, mold and mildew within the filter.
**Datrex Emergency Survival 2400 Calorie Food Ration Bar**

Even if you haven't witnessed a disaster firsthand, you've seen the devastation they cause and you know that you can never be too prepared. If you are out on the water; preparation is even more important. Food rations from Datrex are made from all natural ingredients, have high energy value and are tabletized and sub packaged for easy rationing. They have a five year shelf life and are USCG approved so you know you can count on them when you need them. 200 Calories per bar/4 packs of 12 bars.

- Value Pack of Four 12 bar packs, Total of 48 bars with 200 Calories per bar
- Tabletized and sub packaged for ease of rationing and storage in your survival and disaster kit
- All natural ingredients with no preservatives and superior coconut flavor
- USCG, Canadian Coast Guard, EC and NZ approvals; 5 year shelf life (NSN 8970 0154 7777 6)
- High energy value; ready to eat; non thirst provoking
**Emergency Food Kit from Eat Tomorrow**

This 48 hour portable food solution might be just what you need in case of an emergency. Make sure you have at least one day in your car or home for the unexpected. This 48 hour Emergency Food Supply provides you with 20 servings of our delicious GMO free foods.

**Portable Water Heater - SunRocket Solar Thermos and Kettle**

Boil Water With Only Sunlight

SunRocket Solar Kettle Using the latest in solar thermal technology, the SunRocket uses an evacuated tube, boosted by reflective panels to heat and boil water. When opened it can heat water in as little as 30 minutes (weather dependent) and then closes to act like a thermos, keeping water hot for hours. The SunRocket is perfect for home energy saving, camping, picnics, sports events, fishing, boating or disaster preparation. The SunRocket is an essential part of any emergency preparation or first aid pack. It can melt snow, pasturise stream water or make sterile water for medical use through heat treatment. The SunRocket is scratch and weather resistant, compact and lightweight. The SunRocket is made from quality materials under ethical and environmentally sensitive manufacturing processes. Great gift idea for those hard to buy for! Specifications: Dimensions: 45x11x11cm (17.7x4.3x4.3 inches) Volume: 500ml (17oz) Weight: 1kg (2.2lbs) Materials: Evacuated vacuum glass tube made from Vycor glass (95% silica, high temperature and thermal shock resistant) and copper / aluminum absorption. Reflective aluminum panels, high quality scratch and weather resistant plastics, pressure release valve.
Ontario ASEK-AircrewTM Survival Egress Knife

The only survival/egress knife chosen by the U.S. Army for its Air Warrior Equipment System, the Rothco Ontario ASEK-Aircrew is a soldier’s best friend. The knife—which measures 10.25 inches overall—features a sturdy 5-inch carbon-steel blade with a zinc phosphate finish to inhibit rust. The blade sports a serrated edge with saw teeth on the spine, along with a hardness rating of Rockwell C 50-54. The knife also includes an insulated handle that’s molded over the blade guard, with a lanyard hole and glass breaker on the butt cap for good measure. The high-strength, machined-aluminum handle will not melt or shatter.

Knife Specifications:
- Survival/egress knife with sturdy 5-inch carbon-steel blade
- Serrated edge with saw teeth on spine; zinc phosphate finish
- High-strength, machined-aluminum, insulated handle
- Flame-retardant nylon sheath and strap-cutter multi-tool
- Chosen by U.S. Army for Air Warrior Equipment System

Elite Recon 3 Sleeping Bag

On issue with NATO and the U.S. forces in Afghanistan, the Elite Recon 3 Sleeping Bag and compression sack together weigh less than three pounds and are safe for machine washing. The Recon 3 has an extremely durable Ripstop Nylon shell and Dupont Thermolite Micro insulation allows for maximum heat-retaining capability. This space-saver, is the perfect addition to your survival go-bag.
New- SOL Escape Bivvy Tactical Gear Survival Sleeping Bag/shelter

The SOL Escape™ Bivvy is nothing less than a revolution in backcountry shelters. The complaint with most ultra-light emergency shelters is the same: condensation builds up inside as you get warm, leaving your clothes soaking wet. With the Escape™ Bivvy, condensation is no longer an issue, and you never again have to choose between staying dry and staying warm. The proprietary fabric lets moisture escape at the same time that it keeps rain, snow, and wind on the outside - all while reflecting your body heat back to you. Waterproof seams plus a drawstring hood closure and side zip mean you can seal out the elements entirely or use the bivvy like a traditional sleeping bag. The low-visibility OD Green color with repeating black logos is ideal for those times when survival means you don't want to be seen. KIT DETAILS

Size: 84” x 31” Weight: 8.5 oz. IDEAL USES Hiking / Backpacking Expeditions / Adventure Travel Hunting / Fishing Emergency Prep

Chinook Polar Micro Mummy Down 32-Degree Sleeping Bag

The Polar Micro is a great summer bag, ultra compact and lightweight. The stitch-through construction is filled with 10.6 ounce (300 g) of 90/10 French Pyrenean grey goose down, 600+ fill power giving a temperature rating of 32Degree F (0DegreeC). The outer shell is ripstop nylon and the lining is polyester fabric. The insulated draft tube prevents heat loss through the #5 YKK reversible 2-way locking zipper. Other great features include an internal pocket, hang loops for drying and storage and zipper guard to prevent snags. It measures 83-Inch x 32-Inch (at shoulder), 20-Inch (at feet) (210 x 80, 50 cm) and has an overall weight of 1.5 pound (0.7 kg).

- Great summer bag with a temperature rating of 32 DegreeF (0 DegreeC); ultra compact and lightweight
- Stitch-through construction filled with 600+ fill power of French Pyrenean grey goose down
- Carries a limited lifetime warranty
- Measures 83-Inch x 32-Inch (at shoulder), 20-Inch (at feet) (210 x 80, 50 cm)
- Overall weight of 1.5 pound (0.7 kg)
**22-Channel GMRS/FRS Radio**

The Midland XT511 radio provides you with seven GMRS/FRS, seven FRS (Family Radio Service), and seven GMRS (General Mobile Radio Service) channels, for a total of 22 UHF channels. Additionally, the XT511 comes with 121 privacy codes to lessen interference or eavesdropping, which in effect gives you 3144 channel options.

Five separate call alerts identify incoming calls from your group, and an e-VOX function with three selectable sensitivity levels offers voice-activated, hands-free operation. This radio also features a channel scan, for locating active channels, along with a keypad lock so you don’t accidentally change your settings.

While communicating, you can rest assured you’ll be heard with features like auto squelch, which removes annoying background noise. You can also make sure you’re hitting keys with keystroke tones, and use the keypad lock feature to “lock in” your preferred settings.
Ambient Weather WR-335 ADVENTURER2 Emergency Solar Hand Crank AM/FM/SW/WB Weather Alert Radio, Flashlight, Siren, Smart Phone Charger

A must for any emergency toolkit, Bug Out Bag, or just hanging out at the beach, the WR-335 combines multiple emergency features into one compact package.

The WR-335 is a Digital AM/FM/Shortwave NOAA Weather Alert Radio, a powerful LED flashlight, siren, and cell phone, MP3, MP4, Amazon Kindle™, Apple Ipad™, Iphone™, Iphone™ and USB charger, all in one portable package. Also includes and AC adapter.

The WR-335 is a six way charger - charge from a USB device (computer), AC or wall power (included), DC or car charger (optional), 3xAAA batteries (not included), hand crank, or solar panel.

The WR-335 sets itself apart from other crank chargers - you can fully charge the WR-335 through the USB/AC/DC adaptor, and when you need it, charge the cell phone/mp3/mp4/USB with no cranking. Other crank chargers require continuous hand cranking to charge a device.

The newest innovation from Kaito, the KA550 is designed for both everyday use & emergency preparedness applications. It offers different methods to power up itself including an optional AC/DC adapter, three AA batteries (not included), the built-in rechargeable Ni-MH battery that can be charged by the AC adapter, hand cranking or a computer, and the patented flip-up 180-degree adjustable solar panel provides power for the radio even when no battery is installed.

- 5-way powered emergency radio with hand crank generator, solar panel, compartment for AA batteries, 5V USB input and built-in high-capacity replaceable rechargeable battery
- AM/FM/Shortwave & 7 pre-set NOAA weather channels with alert help you be prepared in the event of emergency, power outage, natural disaster and other unpredictables of life
- Built-in standard DC 5V USB port for charging cell phones including all generation of iphones and other small compatible devices, such as MP3 players, digital cameras, GPSs and etc.
- 180-degree adjustable solar panel ensures maximum sun exposure
- Rubberized water-resistant housing + 5-LED reading lamp + Flashlight
Adventure Medical Kits Adventure Medical Sportsman Grizzly Kit

Hunting and fishing demand specially tailored gear, which is why Adventure Medical Kits has created the sportsman kit. Designed for recreational hunters and fishermen on trips up to four days long, the Sportsman contains supplies to treat the most common injuries, including penetration wounds from bullets or arrows, fish hook removal, stabilizing sprains, and stopping severe bleeding. Weighing just over a pound and compact enough to fit in any pack, the sportsman is required equipment on your next hunting/fishing adventure.

- Designed for recreational hunters and fishermen on trips up to four days long
- The sportsman contains supplies to treat the most common injuries
- Weighing just over a pound and compact enough to fit in any pack
- The sportsman is required equipment on your next hunting/fishing adventure
The Comprehensive kit set the standard for backcountry medical care over 20 years ago and continues to do so today. Group leaders will find everything they need to care for a large group on an extended trip in easily accessible, injury specific compartments, thanks to the Easy Care™ organization system. Key features include a fold-out organization panel for medications, a detachable Ultralight / Watertight summit kit featuring DryFlex™ technology, and supplies to treat basic and advanced illnesses and trauma, including: Glucose Gel, dental repair items, a scalpel, oral re-hydration salts, a sterile scrub brush, and numerous bandages and dressings.

**Adventure Medical Kits Comprehensive Kit**

**Israeli Survival Bandage**

The Israeli bandage is an innovative, combat proven first-aid device for the staunching of blood flow from traumatic hemorrhage wounds in pre-hospital emergency situations. The emergency bandage’s sterile, non-adherent pad applies pressure to any site, can be easily wrapped and secured, and has an additional application, similar to a tourniquet, to further constrict blood-flow. The product is so easy to use that even an injured person can self-apply the bandage with one hand.

- Used by all branches of the U.S Armed Forces
- Vacuum-sealed
- Low-cube packaging
- Quick and easy self-application
- Hemorrhage control compression bandage
**Magnesium Flint Striker Fire Starter w/ Steel Survival Compass & Whistle**

Tired of cheap flints that break after the first use? How about the ones that only have a tiny rod of flint and the rest of it is painted aluminum? The Flint sparks hotter than lava (5,000˚F) and turns fire starting into something fun and enjoyable.

- Tough, reliable compass
- Seamlessly integrated whistle in handle
- Create fires for warmth, food, drinkable water, smoke signals, and more
- Attached striker has a saw edge for making fine shavings that easily catch a spark
- The whistle's unique sound is exceptionally loud, and scares off bears
Light My Fire Swedish FireSteel 2.0 Army 12,000 Strike Fire Starter with Emergency Whistle

Originally developed for the Swedish Department of Defense, Swedish FireSteel is a flash of genius. Its 3,000-Degree C spark makes fire building easy in any weather, at any altitude. Used by a number of armies around the world, Swedish FireSteel's dependability has already made it a favorite of survival experts, hunters, fishermen and campers. It has also found its way into cabins and backyards as a fool-proof way to light stoves and gas-barbecues. The Army 2.0 has an ergonomic design makes for increased ease of use, and the striker has an integrated whistle.

- Compact fire starter designed to light fires in any conditions
- Provides 2,980-degree C spark in any weather, at any altitude
- Durable, lasts for approximately 12,000 strikes
- Army 2.0 model features improved stainless steel striker and ergonomic handle
- Bright spark - can be used as emergency signal

Bear Grylls Survival Series Fire Starter

The Fire Starter contains everything you need to get a fire going--simply pull the unit apart. It features a ferrocerium rod and a metal striker, as well as a waterproof storage compartment to keep tinder dry.

A lanyard keeps each piece of the product secure while it's open, and has an integrated emergency whistle for quick access when you need it.

- Compact fire starter with ferrocerium rod and metal striker
- Lanyard to keep product secure and together
- Emergency whistle, integrated into lanyard cord
- Waterproof storage compartment for tinder
- Land to air rescue and SOS instructions also priorities of survival pocket guide
**J5 Tactical Flashlight**

This J5 Tactical Flashlight is a great addition to your bug out bag. A good light can be used in time of distress or to locate or signal if you become lost or stranded. This tool has a lamp life of 100,000 hours and outputs 250 lumen. It's rugged design allows it to take a beating.

- Lamp Life 100,000 hours
- Output Levels 250 Lumen
- Reflector Aluminum
- Working Time 4 hours at full power
- Power Source 1x14500(lithium) battery / 1xAA
- Body Materials Aluminum body with anti-scratching type 3 hard anodization
- Construction Shockproof and water resistant
- Lens Material Toughened Clear resin convex Lens
- Zoom push to zoom
- Dimension 91 mm (heart) x 24 mm (head D) x 19mm
- Weight 65g(excluding battery)
- Application army, hunting, camping, climbing
Life Gear LG21-70002-BLA Highland LED Tactical Flashlight

Life+Gear Highland flashlights are equipped with bright CREE LEDs that offer a minimum lifespan of 10,000 hours. The flashlight’s main light projects a long-range beam and has three modes: high, low, and strobe. A red emergency light on the other end of the flashlight is powered by separate button cell batteries (included) and can be set to glow mode and used like a flare or set to flasher mode and used like a beacon. The button cell batteries are made to last up to 200 hours in flasher mode.

- 10,000 hour LED Technology, Up to 200 Lumen's
- Requires 2 C Size Batteries (not included)
- 3 Main Light Modes: High, Low, and Strobe
- Red Tail Emergency Flasher and Glow Mode
- Water and Weather Resistant

Fenix HP25 Headlamp

FenixLight Limited came about when a group of young men passionate about high quality illumination tools, grew increasingly dissatisfied with the number of mediocre flashlights on the market; which they felt often featured substandard construction and poor attention to detail. These men then set out to make world-class lighting tools and began by organizing a group of professional engineers to head what would become Fenix-Light Limited’s machining, electronics and design departments. Fast forward to today, where Fenix activates the latest potential of LED technology in flashlights, headlamps and bike lights. These easy to use flashlights with multiple modes allow you to get the most from your batteries while simple controls make it easy to switch from one mode to the other.

- Max 340 lumen output from four AA batteries
- Multiple output options from spot and flood combinations
- Reaches up to 525 feet, 205 runtime on low
- IPX-6 Waterproof, 1 meters for 30 minutes
- Supported by limited lifetime guarantee from Fenix Lighting, US
